——— A **DEV IT** COMPANY

Indent

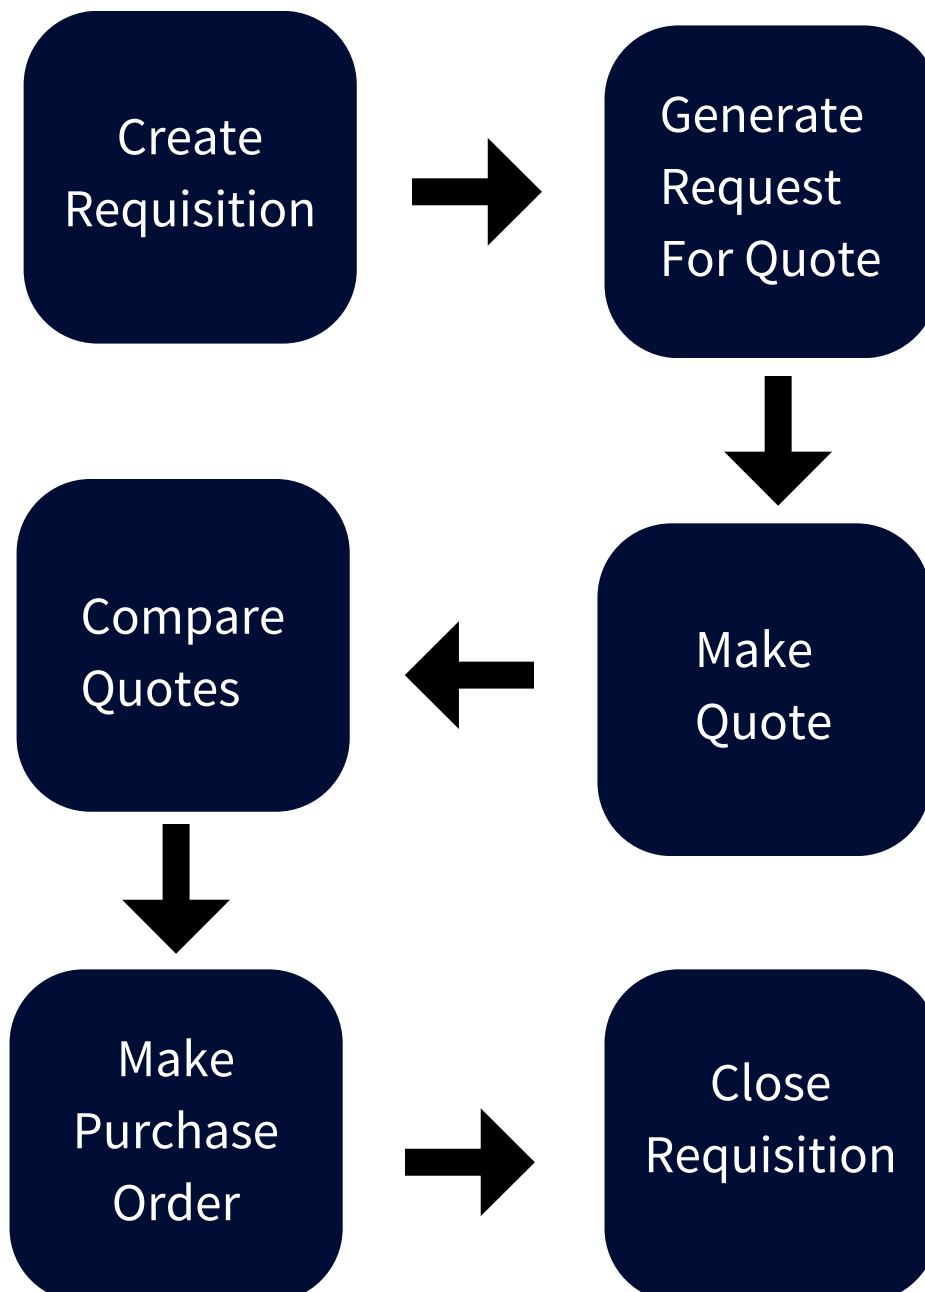

Make your Procurement
Processes More Transparent

Indent Management System

Are you having trouble managing your procurement processes ? Streamline procurements, handle multiple requisitions effectively, get insights based on material requirement trends with ease using Dhyey's Indent Add-On.

Indent - How it works

Key Features & Benefits

- Set up the purchasing process without any hassles
- Adopt a flexible approach and allow any employee or department to create the purchase requisition document.
- Print Purchase Requisition Form
- Generate & Compare RFQs
- Look at Purchase quote comparison history
- Ensure transparency in the procurement process
- Assign a purchaser to process the request

Dhyey's Indent Add-On is the perfect solution for streamlining your company's purchasing process. With real-time tracking and integration with your purchase, store, and user departments, you can send requests for items, services, or fixed assets quickly and easily. Plus, you can include multiple requisitions in one document, making the process even more efficient.

Indent - How it will benefit you

- Send enquiry emails to multiple vendors & suppliers simultaneously
- Effectively compare offer or bids to rate the vendors
- Consolidate multiple requisitions in one purchase order or quote
- Get purchase history of high & low-price procurement in the past
- Ensure material issue and return of direct consumption & loan items

Made for

Microsoft Dynamics 365
Business Central
